We stand on the brink of the 2017 FN Convocation. In preparing the writings for this convocation, I realise its not going to be like the previous ones. Those were part of the preparation process. What we about to experience through the sound that will be released from the tip of Southern Africa is going to propel us into the place that has been ordained for us.

For centuries we have operated and lived our lives by an inherited identity – not a good one at all. One that was placed on our ancestors and us by systems (political), structures and processes that was contrary to the plan of the Most High.

As Foundation Nation it is time to embrace our ordained identity that the Most High El bestowed on us. He is very serious about 1st fruit principles, and as the 1st (foundation), its time to shake off every thing that we have inherited by violation and subjugation.

When we embrace our ordained identity and reinstated into it - we can expect blessings, and this will not only be experienced by us, but every other people's groups within the land.

So stand up Foundation Nation, and hear the sound that beckons you to the place of blessings. As a 1st take your place with a measure of responsibility, because we are awaiting and anticipating the fullness of the blessing to be experienced in this land.

The 2017 FN Convocation Theme is *'Releasing the sound from the tip of Southern Africa'* – it's a clear, clarion sound and will propel us into the place where we need to be – if we are to function in our ordained calling.

It is incumbent on all Foundation Nation people to find out who they are; and who the Most High El created them to be. The Foundation Nation has a God-given calling as priests (mediators) of the land to take up their stewardship role and lead the way.. But we have seen the reverse, not only today it has been the pattern for centuries. *'For such a Time as This'* – got us focussed on redeeming Time – and in moving forward to use Time wisely so that it can work in our favour! This favour only comes from the Most High and carries with it a blessing of fruitfulness, multiplication and overflowing – so that everyone in the land can experience His blessings!

Not only are the other people groups' waiting on this sound, the rest of the world is waiting for the People of the South to take their place.

How we got here – since 2013 the Inaugural FN convocation

We will surely not forget the journey that we have travelled. The Inaugural Foundation Nation Convocation was an instruction that the Most High gave us to host. Until such time that He instruct us otherwise, the Convocation will take place – because it is a time – a solemn time that the Most High summons the people to gather to hear what He has to say to a nation, in our case – the Foundation Nation restoration.

The FN need to take this seriously, as its time that we experience His presence and see Him face to face, to hear what is needed to see the Foundation Nation restored. This is not a trivial matter. It requires all FN people to understand the importance of not listening to other voices, but the voice of the Most High.

The Inaugural Foundation Nation Convocation took place in 2013, and the theme was *'The way back to the future'*. This event took place at the castle; a place of trauma, torment and pain that our forebears had to endure. But believe it will be a place of triumph for us and our descendants.

In 2014 the Foundation Nation Convocation Theme was *'Finding our way through this maze in an Amazing way'*. Identifying the issues confronting us and why its important to address issues of what the maze depict – *internal challenges; external threats*. A tall order for a people violated for centuries. But we will need to address this if we desire to see the restoration of the Foundation Nation and grab hold of the *opportunity* and the *promise* in the Word!

This led to the 2015 FN Convocation -Theme *'For such a Time as This'*

The significance of this theme was to highlight the importance of understanding the time we are in. *'For such a Time'*, compels us to take stock of the issue(s) at hand; understand the urgency of time and the importance of the Biblical Restoration of the Foundation Nation.

'Time' is a precious commodity, and it waits for no one. It's important for the Foundation Nation to understand that we have the ordained calling of being the stewards of the land. We need to operate in the Most High El's time. We have enough recorded history if that's our departure point to know that this calling was taken away, given away and hence we face the huge task to be reinstated in this calling. There are already so many things, man-made structures and systems withstanding our progress. But the calling is on us, and we need to take it up and very seriously so! Otherwise there will be a serious indictment against us.

It has a spiritual significance for the Foundation Nation. It's about responding to our redemptive purpose – not given by man, but by the Most High El.
